

Discovering Your Ancestors, Series 4, “Deep Dive” into Genealogy Gateways with Janet Camarata.

Genealogy is an enriching and rewarding way to discover our own families. It involves learning about the variety of records and repositories available to genealogy researchers. In this series we will take a “deep dive” into learning how to use some of the major gateways for records and resources available to us as genealogical researchers. Learn how to search, filter, and find records in Ancestry, FamilySearch, General Google Search, Internet Archive and Find A Grave. Learn how to find resources and references using Facebook groups and pages and an assortment of wikis available on multiple websites. . Registration is required. Call 1-360-475-9172 or stop by the PSGS Genealogy Center to register.

All classes are on Saturdays.
